Municipal Housing Complex of Russia International Exhibition coming on April 9 through 11, 2025, in Expoforum (St. Petersburg)

The event is supported by the Ministry of Construction of Russia and the Government of St. Petersburg, and is an effective communication business platform for all participants of the municipal housing sector. The Exhibition is the place to talk about the most pressing issues of the industry's development and demonstration of the best practices and achievements associated with housing services.

Municipal Housing Complex of Russia Exhibition offers a unique chance for businesses and state authorities to have a meaningful dialogue. This is especially important when it comes to today's challenges encountered by the municipal housing sector, including the necessary upgrade of its infrastructure, introduction of new technologies and improvement in quality of the services rendered to citizens. The Exhibition will be participated by big companies but also by small and mid-sized businesses. This will enable creation of diverse and yielding atmosphere that will promote sharing of experience and insights.

The topics to be discussed at the Exhibition cover a wide range of matters from waste treatment to process automation in the municipal services management sector. This puts emphasis on significance of the comprehensive approach to solution of the tasks the industry has to deal with. Exhibitors taking part in Municipal Housing Complex of Russia 2025 will showcase their advanced projects related to operation of the housing stock, major overhaul and current repairs, municipal vehicles and software for management of municipal housing agencies.

This year, the convention program of the event will comprise 8 topic-based areas of focus to cover key issues of development for the municipal housing sector and urban beautification.

The pinnacle of the Exhibition will be the Plenary Session where the experts will discuss implementation of national projects and federal programs aimed at upgrade of the municipal housing infrastructure, as well as premises beautification and strategic development of Russia's municipal housing sector.

Business Matchmaking Centre will be operated as part of the event. There the participants will get a chance to find new business matches and talk over potential partnerships.

Besides Municipal Housing Complex of Russia 2025, Expoforum is also holding other industry-related initiatives, namely Russian International Energy Forum and Power & Electrical Engineering International Specialised Exhibition, Svarka/Welding International Exhibition, Corrosion Protection International Exhibition & Congress, as well as St. Petersburg Technical Fair and HI-TECH International Innovation Exhibition.

In 2024, the event has been attended by 7,000 people from 11 countries, including China, Turkey, India, Belarus, Azerbaijan and Kazakhstan. At the Exhibition, 26 companies presented their latest projects for the municipal housing sector. The convention program was participated by 260 delegates.
